

DISCOURSE

No. 19

Law of Love

Scripture Reading: 8th Chapter of John

Our blessings are with you, children of the Light. You are those following the Master, the Light of the World. You are coming more and more into the higher degrees of Light that shall manifest as spirit, brought forth to renew the Earth. That which is begotten of the Father and sent forth is the leavening--multiples of atoms of energy, Light manifesting through the carriers of light--God's Light in magnification. Light comes from the rate of vibration--the movement of Light through various frequencies of release--and it manifests through the vehicles prepared for it, growing ever brighter. The energies become the building blocks of the new world.

As the Master gave, you shall be free as you know the truth. This within you is that Spirit bearing witness to the truth, because you recognize that from which you came. It shall lead you out of the false suspension which has held you for a time, and shall release you into freedom to expand, to go out beyond limitations. You are coming to the more productive stages of your being, just as in physical growth. The infant becomes the child, then comes into adolescent stage when the productive powers increase and can then reproduce of itself (with the law of two coming together in love), growing through this process into a mature state of development. In the spirit there is a similar way: the soul moving through what might be comparable to the adolescent age, coming into line, into greater productivity. Then union with the Father brings forth great fruits of the spirit, magnification of the light in the God-self, the begotten bringing forth that of like kind in light, energies of creative purposes. The spirit yields the increase.

You cannot understand it all at this time, but you can get a glimpse of that greater magnification, the sun-burst from the energies bringing forth new life in creative force. You and your Father are working together as one. He knew it but you did not, for a time. Now you are coming into the realization of that purpose, coming in line with His will, consenting to let the Father do the works through you. This sets that contact in motion, in action, and the power of the Holy Spirit moves through you in new ways--the Father doeth the works through you. You do not have to know how. You trust, being productive in His name, for His purposes, using that which God is.

Energy, in certain rates of vibration, becomes light as it increases in action, motion, purpose--in speed. As we have explained before, the motives in the heart are that which drives forth the light energies into action, in form. They are the power that builds, changes, or transforms with the energy created. The Father sends forth the energies saying, "Let there be light." This moves in greater rate of vibration as it changes frequency. As that light goes forth and the idea, the intelligence behind the plan goes forth, then that power turns the energies into form and learns to intelligently govern form. This is the son brought into form out of the energies the Father created from the beginning. So, that begotten of Himself brings forth mentally, or projects ideas, turns energies into form: worlds, solar systems, kingdoms.

Thus it was that Lucifer began to mentally devise his own kingdom and set it up in mental form, shaping and moulding that which he would, then taking and influencing that which God brought in for another purpose, drawing it into the snare of his mentally-devised kingdom (for, in free will, each one can do as he will). The Christ, begotten of the Father, is in line with the Father's will, therefore sends forth in obedience to the Father's will, in love of the Father. Being one with Him, he sees the plan, knows His will and moves in line with that to bring about this forming of worlds, or reforming, transforming, changing over, rebuilding. The motives that go forth from the heart, the intent and purpose then shape according to the will that is coming forth.

Be ye one in the Father's will, in the Christ will. In the Christ nature you are one with Him. Then there is no deception or stealing of power for ulterior motives, as is done by those born under the spell or delusions of Lucifer, with lies and deceits. Those born of the spirit of God or born anew through the Holy Spirit have the motives which will permit them to reshape and change, bringing about great changes in themselves and everything upon which they look, for the power of the Spirit moves through them. They see in line with the Father's will. Their motives are pure because they are in the nature of love.

Love and hate come from the same energies, but of different will. Hate is of the will of self and shall die. Love is of the will of the Father. Love is the greatest power and shall always overcome, transcend and be victorious over all else. Therefore the Earth shall be changed and a transformation shall take place within each--a changing of the form of nature, because it is directed forth in love. Love is the power that frees, brings ascension, lifts the soul out of the prison state, because God is love. God over-rules all, but each soul must come in line through desire to be in God's will, to open to God's love. Let that be the motive which goes forth to change the picture, to actually visualize, use and direct energies into form, directed by the Father within.

First must come the change of heart within (the transformation within each one), that it be love, that its motive be in line with God's will. Then from the God-center can all things be corrected, changed, made into new form. People who try to satisfy their curiosity through the intellect, or those seeking sensationalism through psychic phenomena are side-tracked on different tangents. They will not get the key until they have a change of heart within them, a transformation within. Then, in that God-center, all things will work together for good; then the by-products will come. But the change of heart must take place first, and the perspective from that which opens the Christ nature. All this must be considered.

When searching for God, one must go straight to the center and be willing to get out of the way, that God take the throne. When the human self is put away, God is there, but, again, there cannot be two masters. The human cannot rule if the Christ nature of the Father is to rule. The Christ nature is begotten of the Father in His image. It is God Light, God Love, Spirit of God in an extension of Himself. The Father and the Son literally are one. That which you give forth from yourself, of yourself, is one with you, is of the same substance. God's creative force in various degrees is energy in various velocities, going forth as love from the heart--light, intelligence and wisdom, consciousness. The consciousness, awareness and light must unite in purpose with the heart, the motives and the power which transforms. The heart must be in line with the consciousness and the will. These must be of like purpose. Thus united there is wise and balanced power in action, governing power over the forms sent forth.

The Word was the power that went forth to bring into form that already created as energies and light, atoms ready for building, ready for

shaping or forming. Mind came forth with ideas, plans, and the heart brought it into shape and form through the power of love and light united. Life came forth in many forms, in many kingdoms, ever unfolding out of the atoms of energy of creative forces. Eternal Life, eternal sustaining, an ever forming and reforming or changing of form, all intelligently sent forth and governed. As long as the deception and the mental shifting remained outside the "Garden," these forms were in line with God's plan, but there must be the withstanding, the knowing and discerning true from false that these forms be sustained eternally. If there is not that recognition, there must be change and transforming, for all must come into balance, into wisdom and be eternally in action according to the Father's plan, sustained forever. All must come into the state of incorruptibility where there can be no temptations, no influence, no destruction. These come only through the temporary mental projections that are filled with lies and deception--the unreality. Only God's plan is reality, sustained forever. He allows growth and development through free choice, but if there is to be experimentation not of His plan, it must be outside that realm of true reality.

You were not of this world; you came from the Father. You were not only begotten of Him, long before, but you were placed in the fourth dimension for a mission, given a new body of form for a particular demonstration in that fourth dimension, the Paradise state. Your Lord brought you into that form. Out of God's creative energies, he formed that which was necessary for the mission into the Earth--a carrier, a temple to be raised up to house that spark of God life which was breathed into that form. He raised it up from the energies of the fourth dimension--the cosmic dust.

So you had life long before the Earth was, but you entered into a new vessel--the soul body--which was to be raised up to God's purposes, to be sustained and made eternal. But as it became trapped in the mental delusions of the Earth, and then fell into the lower vibrations of the physical world of matter, it was not being raised up to God's glory. Then the Lord of Earth, in love, came into Earth again to go through even the physical which spiritual man had entered into. Through that love he restored the life of the souls. And they have been feeding on his body ever since--on that great composite body of light, energies of spirit--which were required to restore the soul to its heritage.

Thus the temple has been raised up and soon shall be able to stand on those energies that have been feeding the soul body. Before too long a time, in the spirit it will be able to out-weigh or over-balance the opposite, and the Christ nature shall take rule. Then shall be the change-over, for the Father does not plant and raise up in vain. He is bringing about fulfilment so you will go forth in a body of light energies and be filled with His love, which is already given unto you. This shall be the lifting power, His will in you. The power of the Spirit shall transform you, and the Christ nature shall take over; the human nature shall fall away. You are actually experiencing some of this already, for you have given consent, but you keep trying to find the way yourself. You will not know the way to this. You give consent and put down, or crucify the human nature, as the Master gave. Let the other nature come to the fore and take over. As it does you are already feeling the old dying out.

As you become more and more disillusioned in your world, with all the systems of man--hu-man, not spiritual man--you have nothing left to depend on, to stand on, as far as the human nature and the world of humans goes; there is nothing left to give security. Of course there never was, but you were not aware of this. As long as there was prosperity and everything was going well, man leaned upon his own glory and upon his own systems. He has to see them fall before he will become so disillusioned with them that he can come out of his

illusion, come out of the dream, turn loose of all that held him earth-bound, and allow the Christ nature to take over.

As man becomes weaker and loses ground, as far as the world is concerned, he comes closer to being raised up in God's power, in God's love. The choice is in him; but he must pray, desire to open to the Father's love, realizing that there is nothing outside the Father. So, the sadder man becomes, humanly, the more joyous will be the soul. It is coming up in victory. You will experience this at times--the joy of the soul. Be not troubled about all that is falling. It is God's will that it fall, that a far more abundant life and kingdom shall come forth. Keep your faith in this. As you feel that within your body and mind going down, and you become completely disillusioned with everything, you will know where to find security. You will have proof where it is not.

Finally you come to the realization that God, the Father, is the only power there is, that the Christ nature is one with the Father, that that shown you by your Lord is now within you--the same principle, the same law, the same opportunity. When you become weak, completely worn out in the ways of the world, the Father shall do the works through you, for you--your illusions or delusions--are then out of the way and you shall no longer be dependent upon that which you now see falling. When these are gone you will be stripped bare and you will turn and rely upon your Father. In the nakedness of the soul there shall be humility and a desire to return unto the Father, with promises to never again turn away.

Remember these promises. Let them sink deep within you, covenants with your Lord. It is only the soul memory of this that now keeps you where you are, for that covenant which you made long ago was so deep that it now comes through unto the surface in memory, that you be true to the conviction of your soul. Carry this forth so that it will not be forgotten by the time that choice comes up again, during the millennium when other souls start to come in. The ways of Lucifer shall rise up again at the end of the thousand-year millennium. You will be helping. Do not allow yourself to forget your conviction. Go forward, on and on. Then you will have your second resurrection, completely removed from that. You will have earned it, then, by the work you do through the millennium. So hold true to your purpose.

During the millennium there will not be the same time measure, for that of the fourth dimension shall be much better than you have had in your third dimension; Heaven shall be on Earth, as it was long ago. The new heavens shall surround the planet--new dimensions--cleansed, filled again with greater light. Trust in the Father's plan and wisdom, and you shall work as one with Him, as you come into reality; you are the instruments that He shall use to bring His plan into fulfilment. Acquiesce to this and move self out of the way. Let the Christ nature take over, in you. Love your God and be grateful unto Him, and He shall do His works through you. Bless you, beloveds. Great is that day that is coming. Selah.

* * * * *

So be it! As you were led into the reality of your Christ nature and its oneness with the Father, you reached another peak of realization, and the Master who demonstrated that law--the very nature which God bestowed in you--has again stood in your midst. Your Lord is truly the Shepherd leading you out of this bondage of the world dimension. It is the lifting of your consciousness, and it is as though you touch the hem of his garment as he passes through. He comes when you are in that high point of consciousness, stepped out
