No. 24

Re-dedicate Your Life to God

Our greetings unto you beloveds. We would speak to you at this time on the faith that produces hope, just as we led the channel in the opening verses from your Holy Writings. It is this realization that we are desiring to bring closer to you as you open to greater understanding. These Scripture readings are more important than ever at this time, for we carry you literally into that focus, fuse with you in consciousness, help you to identify with certain concepts or realities that must be brought to your remembrance on the conscious level as you progress through the spiritual works. You are descendants of Abraham and of the lost tribes of Israel dispersed over the world, and all these promises are passed on to you. You, among others, are the remnant at this end of the Age.

Your faith is stimulated by the realization of answered prayers, of the witnessing of those who have experienced much in the reality of Spirit, and also in feeling the Presence yourself as the spirit is quickened within you. This faith must be the foundation on which you move forward. Many who are re-dedicating their lives unto God in a new way, in a new realization are becoming more aware of the meaning of true faith.

So it is with those who would further the work of this channel as she travels from one place to another, carrying the message and lighting the torch as she moves on. This love and sustaining is built upon faith, and faith that is reality produces hope and expectancy in each one. For the hope of the world is that in which you have placed your faith. The hope for you in Eternal Life and the Kingdom in which you will be functioning is that which comes from absolute faith in your heart in the principle demonstrated to you by Jesus through his great love. He allowed the begotten of the Father to unfold. It was God's likeness coming into power and productivity within the Son who acquiesced to His will, surrendered unto the Divine plan and allowed the Father to do the works through Him.

Thus he revealed unto you a mystery--that the same principle in you would bring forth the same results. Faith in this demonstration through the love of your Master has brought you in contact with this law, and it has helped you to come into alignment so that it can happen within you. This gives you not only hope but the certainty of the new Kingdom of Eternal Life. God makes no errors, does not deviate from His plan. He sent you forth as His begotten, that this plan be unfolded in you. You may certainly have faith in that. It is the only sure thing that you have. God created you, sent you forth with His likeness within you, the indwelling spirit within the temple, the soul. The spirit is the likeness, with attributes of God, potentials of God, creative power: light, love, intelligence, and the wisdom to use that power, the ability to reproduce Divine energy and send it forth to transform.

Thus there are atoms of energy to form and change--His creative works. Finally the begotten were to be raised up unto Christhood and in wisdom to govern other worlds, as well as to be co-creators in the Kingdom on this planet. These are the great cosmic plans way beyond. But now you are being put right with God, are coming into alignment with His will. His plan is revealed unto your consciousness through the increasing light. As your capacity within

increases, you open and receive through desire, you receive greater light which enlightens and illumines. You receive greater love which gives you more realization of the mercy of God, and the compassion and mercy and love that you will be sending forth, for God-in-you is the same God of light, and love and mercy as the One you read about. The Father shall do the works in you. This shall be not of your own effort.

You have faith, persistence and dedication when you are true to the conviction of your soul. We are bringing to remembrance these things which you already know, deep within. It is all for the glorification of the Father. Keep this thought ever before you. Nothing that you do must be for self. You as a soul will benefit and be blest, but even when you "do unto others. . ." it is for the sake of glorifying the Father. Let the Father be glorified in you, that you allow His work to manifest in and through you without fear, without hesitation, without turning back. Always going forward in His Name, growing into the fullness of His Spirit, in the name, the vibration and frequency of light in which you travel. The love of the heart is the light that raises your consciousness into much greater realization.

It is essential that you have deep abiding faith in your God. Not a shallow faith, not a faith that believes He can work with some but not with you. It is a faith which tells you that God is within the holy temple of you. With conviction rise up and be that which you are destined to be, in His Name and unto His glory! You can no longer be shy and reticent on this point. Be strong in your Lord with the strength that is in Him because He is in you. Without this you have no life and no hope, so what can you lose when you put all your faith in the God who created you? This is not something intangible that you may or may not believe. It is the solid rock upon which your house must be built if it is to withstand the storm and turmoil--endure unto the end and inherit the Earth. It is the overcoming of all that is not of Christ that shall bring you through as the Father doeth the works through you.

There must be confidence in this and yet not confidence in your human self, not in your ego, not in your ability to do good or be good. "There is none good but the Father." The goodness that comes from you is the Father's goodness in you. You have the free will to choose. This gives you conviction and you are given the ability to follow through with that conviction. These are the things that shall lift you out of yourself into the reality of your Divine nature. When you come out of unreality what would you have if you did not choose to enter consciously into the only reality there is. You went apart in consciousness and entered a dream, a nightmare of the counterfeit, full of false images, false kingdoms full of deceit and disillusionment. Let it all be burned away, let it be cleansed through the secretions of the endocrine glands within you, the spiritual link between the physical and spiritual. Let this purify as your attitude changes, as the quickening of the Spirit fulfills your potential of God-power, of productivity. Then you will not be taking His name in vain, but you will be manifesting it to His glory.

The fullness of the Light of God is the glory, and in this you shall find yourself, your true self when you have put down the human ego, the human will. In every part of your being consciously surrender unto your Creator, with conviction, with faith that in His wisdom He knows how to raise up His begotten into fulfillment. The end of the age approaches and preparation continues for all those who face reality and move in faith toward the experience. There is no reality in your crumbling world. Even the planet shall be renewed in its life forces, its spiritualization. It shall be cleansed, purified, burned out, as it were--made new. Just previous to these cleansings of Earth and its heavens, those who have been true, having served their God unto the end will then

be drawn up into the clouds to meet the Lord of Earth. They will be preserved in appropriate frequencies until all has settled into equilibrium upon Earth. Then they shall come forth with him to manifest in the fourth dimensional Kingdom on Earth--co-creators with him, rebuilding in Divine ways, making new, bringing order instead of chaos, establishing peace on Earth. This is the hope for the next thousand years and much more beyond that to the second resurrection. Cosmic realms await you.

It is not as difficult as you think, once you have made up your mind, made the decision, held true to the conviction, and have put down your own will. This is the last thing that man will give up. If he would do this first all things would be added unto him--well-being, health, all the supplies and the needs met, but no, he has to run clear through the gamut of tribulation, of illness, fighting and struggling his way through because he will not give up his will. This is not the strength and determination of the Lord. The inner conviction of the soul, the still, small voice of conscience, of prompting, of intuition is the one that will speak to you of God. Your human ego is bound to exert itself, but once you have discerned, once you have obeyed the command to above all else pray for discernment, you shall recognize true from false. Once you have done this and your discernment increases, you recognize and choose between. You know when it is your human ego, human will flaring up, and you know when you are quietly submitting unto the Father.

Admit that His plan is far beyond yours in wisdom; transmit His Light in love over the Earth. We have given that lesson many times: "Admit, Submit, Transmit". This is the key. Once you know, you not only consciously believe you are aware in the innermost part of your temple. You know and you act upon that knowing, moving in faith that is stronger than the earth beneath your feet. Your God knows what He is doing and He brings forth that knowing into the hearts of those who are open to receive, for each one carries it within that holy temple which they may have misused or overlooked. You have the I AM presence within your temple. What will you do with it? Surrender to the Divine Plan and move accordingly as the Light begins to reveal. The guiding hand of your Shepherd leads you forward in great love into unfoldment.

Will you follow this, or do you choose the old ways of deceit and will of the ego? Your Master said long ago, "Crucify self; put down the human self that you might, in reality, rise up in your Divine self, eternal in life awareness and consciousness. It is born of love and is divine nature manifesting. With that choice before you, do you choose the golden calf, or do you choose the Living God and walk upon the solid belief that His Life manifests through His temples? Then get out of the way and let it happen. Remove yourself that He may walk with you, as well as where there is group consciousness. He does walk in your midst, and in the sameway within the temple of you every time that the human of each has stepped aside. Then the God-force, the God-in-action, moves through with no interference.

It is not that His power would not be stronger than your interference, but the great law is that He gave you free will and you are to choose whether you bolt the door or open it. It is opened for you when you so choose. Then the power of God is activated in you, ready to move through in many ways. You do not have to know the details--just how or when. God does not have to tell you everything before He does it. He does do this. In many of the great things to take place, He has revealed it ahead of time. But you have not believed in Him, yet you would expect Him to let you know every little detail, if possible. Be patient, trust in your Lord and give that temple back to Him. He will find it acceptable unto Him when it is offered in humility. His Spirit then will help to remind you not to let the human in so often, but will help you to shut it out

and rise up in His nature, which is your destiny.

That is the hope that is prompted by faith. Only true faith can produce this hope. If it is shallow, if it is not genuine God knows, and you become aware of a doubt or a feeling of guilt because you know you do not quite believe. If this be the case, then pray, "Help Thou my unbelief". God is, and a true prayer from the heart is answered; but be patient in waiting for the result. As this becomes reality to you, and greater clarification comes of many of the things in your Holy Writings, then it enables you to walk more surely in the footsteps of your Lord, who went before as an example of that which shall happen to you. He gave every evidence, even to those who doubted, and he left you the perfect demonstration--the example of one begotten of the Father, coming into full manifestation, with power of the Father moving through. Faith in him shall lead you into reality, because that faith does produce hope. You become alive and expectant in hope.

You were warned that you might become impatient, that you might have difficulties along the way and you were also reassured. "Let not your hearts be troubled; believe in God, believe also in me." Believe in God, believe in the demonstration of that law coming to pass in you. You will be raised up in your divine nature; God does not fail. You prolonged it, but now you know; now you see, to a great extent, and are no longer fully blind. You are seeing in the Light; the Light is dawning on your consciousness. In that sunrise within, many things are revealed that you had not recognized before because the night of darkness was in you. You are moving into greater realities, making ready for the time ahead. It will be a marvelous kingdom--a return, indeed, to the Paradise State which you left--but that is only part of the way that you shall travel.

Rejoice that you are being reoriented, but realize that you cannot become "good" by yourself. We have repeated this over and over, for it must be said at the time that you open up to accept the reality. It is the Father's goodness in you as you surrender unto His plan and move into that nature consciously, into action in it. Be still and know the same nature is in you. It shall come into new life, shall strengthen you, shall give you confidence in Him. It is not a man-made organization of religion but the living reality of that produced by your faith, the Holy Spirit in action in you. You abide in the Christ nature consciously, with his words abiding in you, and it shall come to pass. All things shall be fulfilled because it is the Father in you that doeth the works. Have faith that this manifestation shall take place. Then be true to the conviction of the soul, and further the message of God, the Creator on Earth in these last days. You shall receive many blessings; it is not to be in vain.

Many are coming in at this point and, in recognition, are responding, moving into place. Surprised at a late date, they seem to be finally realizing. Yet they find that they are not beginners, that the soul has known this all along. It is now making contact, consciously, with the outer physical consciousness, thereby gaining cooperation. That within shall come forth into the outer. Through the outer consciousness it shall manifest in the Earth, no longer hidden but as leavening, coming to the surface to manifest outwardly. This comes from genuine faith in the heart of spiritual man.

Your temple is built on that faith--the solid rock. It shall not be torn down. When you are in conscious agreement you are no longer a house divided against itself that might fall; you are no longer out of balance. Through choice the consciousness is in agreement with the conviction of the soul and they move together. The foundation of faith and the gift of the Spirit of God within shall bring great things.

Bless you beloveds. You shall go far, for the Lord is with you. Follow your Shepherd; he shall not lead you astray but, rather, out of temptation,

into the green pastures, through the valley of death--all into the clear, and it shall be accomplished in you. Selah!

* * * * *

And so it shall be! Walk in that faith, stir with the hope that it brings and be true to that conviction within to follow your Lord all the way. The time is short; many are becoming unbalanced because they cannot move in the strength of this greater Light. Keep your eyes upon your Lord and in this vortex you are of one accord, in His Name. He has walked with you and is with you now. Give thanks and praise unto your God. Selah!

And you shall walk into that kingdom with me. Doubt not; walk in faith and enter reality. Peace be with you.
