

DISCOURSE

No. 29

The Heart Circuit

Blessings unto you, children of the Light. You come in brilliant colors of the soul. There has been a renewing within you, and as you put down the human ego, you walk in greater humility. You have been obedient unto your Lord.

There has been much prayer going forth from this center when you come together for meditation and for these sessions, and it has brought a greater magnification of Spirit. Even through a time or two of, shall we say little disorders that moved through? These were quickly corrected by Spirit and all was brought into immediate harmony, for you have sincerity in your hearts and the power in your midst has been great. You have been learning to direct this, to channel it appropriately and effectively. Examples of the effectiveness of this Light have been shown you. It shall become even stronger as you continue to direct it unto those for whom you have been praying. There is much value in coming together under the direction of your Lord, but you shall also carry much with you when you go from this area. For there are changes taking place in your inner self; you will never be the same again. The soul body has been strengthened.

You must be prepared to meet the frequency of light into which you will be drawn when the call comes. Many of you will still be in the flesh and will be drawn up into the clouds, into the ships for God's purposes. It is not as far away as you might think. Then shall come the great tribulation upon those who are unbelievers by choice. As changes come more rapidly, there will not be time to consider, to draw apart and meditate or to come together for the magnification of Spirit. This is the tarrying time of your Lord, the time extended unto you for preparation, through the mercy of God. For when the change comes in the twinkling of an eye, the fourth dimension shall come into its own. Rapidly the tribulations shall deal with that part of the Earth which is not to be preserved for the future. There will be no time then for further learning.

We desire to help you to be fortified, help you to gain equilibrium so as to be calm within no matter what happens. Then you will be an asset unto the Lord. Many shall panic in those days. There must be enough with faith to give courage and stability to others who are being prepared. So we are working with your endocrine glands and are strengthening your etheric bodies. This accounts for various sensations of the physical body which you may experience that you are not accustomed to. The work is going forward. We cannot explain every detail to you for your curiosity would cause you to dwell upon the details and would change your focus. This is typical of human nature. Your focus must be kept upon the Christ, for you are moving into that Christ nature--the Christhood--even as he. It is the fulfillment of the Divine Plan. Acquiesce to that plan and let the Father do the works in you.

Human effort is not that which will bring the unfoldment of the Christ. The desire of the soul to unite with the Father through divine love brings realization, and you, "man", take control and use authority in the higher self of you. You bring yourself into line, but it is the Father in you that doeth the work; His spirit shall bring the increase. Let go, in that sense, and you will realize that the Father moves in a beautiful rhythm, active and passive.

Promptings within shall show you more of the Father's plan. Follow in obedience and as you surrender unto God's will you are climbing the steps toward ascension.

Life Eternal is the reality. Awaken from your dream state and come forth in new life, in new strength. Then shall you put down human reactions and walk in meekness and humility. Let the mind that is within Christ Jesus be in you, for it is your heritage as the begotten--children of Light, begotten--the breath of Life breathed into Adam. Thus you became living souls, with the indwelling spirit. It was a seed planted to come into fulfillment. The Spirit shall do mighty things through each temple that is emptied of self, cleansed, purified and offered empty unto the Father. He shall fill to overflowing.

These are the days when you are being prepared for the Kingdom of Heaven on Earth. You are being changed in many ways. You have even been changed since the beginning of this retreat. Some of you have felt the intense light beam upon you, have felt the heat from this. Others had a feeling of bands around the head or sensations in the solar plexus. There are often different sensations in the body when the soul is being revitalized. Even the cells and tissues of the body are going through a change. When you come together in a concentration of power, with your minds focusing on one goal, these things can take place more readily than when you are out in the everyday world where your attention is scattered. You hit snags of despair, discouragement or depression as you get caught up in the race. You do not know how to come apart from it. That is why we have suggested repeatedly that you start simplifying your lives and become less involved with unnecessary things of the world. You can eliminate so much from what you are doing and find more time for God's purposes. Do not eclipse your goal by looking at that in-between.

You are learning much deep within the soul, and there is a new strength within. You are better able to control yourselves, though there is still much more to be learned. Let go, give everything to your God; relax your tense bodies. Relax, relax, relax. Release the racing thoughts in your minds; release everything that would keep you from your Lord. There is nothing to hold to in this world. Turn loose! When you have done so, you shall be lifted into a peace and a security such as you have never consciously known in this incarnation. Strive for the stillness within, for in that comes your feeding, your strength and the knowing. You must learn to be absolutely still inside as well as out. Then you shall find your God-center. In that stillness the healing currents flow through.

Many of you have been with these lessons for a long time, and you have acquired the ability to sit quietly. Practice and develop this further, for the outer world is very distracting. You are very dedicated and you are trying. During this retreat you have given all to come into line with God's purposes, and you have cooperated in beautiful harmony, one spirit, one consciousness. Everyone is moving together as one vessel to be filled of the Lord. Each one has been filled to overflowing.

In the closing days there shall be an undergirding that shall go with you and shall strengthen the pillars of the temple. You shall carry back with you the beautiful experiences of spirit that have taken place in your fellowship here where you learned and realized many things. You have been so very receptive. We are delighted and we rejoice. Through even a stumble you learn much. Growth and expansion is taking place if you can but believe that all this is going on in the invisible within. Trust it to grow just as you would the seeds you plant in a garden. You trust them to come forth in full bloom. And so will you.

Progress is being made because you are stepping aside, letting the

Father mold and renew you. This is the secret. You do not do it yourselves. In your hearts you desire, and you offer yourselves. Then in your higher nature, you discipline some of your actions and reactions, that the Father in you do the works. As you do this you unfold toward that which shall ultimately be your Christhood. All those in the great host or body under the direction of your Lord shall become Christed. Your realization of this and your surrender to it are what God has been waiting for.

Now you are coming into the realization, into the acceptance of many things. In a circle such as this, each draws the best out of the others, bringing about the building of the temples unto the glory of the Father. When those whom He sent forth, begotten in His likeness, are finished products, then is He glorified. He does not send forth in vain. When you have greater faith in this you will be glad to put down the petty things of the third dimension. Rise up and take authority in that Nature which is yours, begotten of God; the Creator is waiting for you to claim it with thanksgiving and praise. In that Nature you can do many things, but do them unto His purposes, not unto self. For the sooner that you put down the self, the sooner shall you attain that Nature. Then you shall be as Jesus, the Christ, but He shall still be your Lord.

Many things will you do in the fourth dimension, in the Paradise State, the Kingdom of Heaven on Earth. God fulfills His promises. He works with that which He sends forth for a purpose. He knows everyone and loses not one. He cares for His own. The cohesive nature of Spirit is to draw together those of the same purpose who move in the same direction down the cosmic highway. They shall be a leavening over the Earth.

Often we have stressed this network of the light centers. The channel travels from center to center, visiting in the homes of each. And some of you do the same. You come to know each other and can attune in prayer and thought--one with each other, one with the channel, one with the headquarters where the physical work is done. This is the true basis of operation of this work. There is a network just as the arteries and veins of your physical bodies carry the blood. The energies of Spirit shall flow between those who know how to attune with one another. Later this will also be used as a communication system. For those of Spirit there will be thought transference and instructions on this invisible network in the hearts and the consciousness of each in the light centers. It is as electricity sent into each of your homes from the powerhouse of your electrical companies. This works in a similar manner.

Energies are real. Those who love one another, who work together in the Spirit, establish channels of communication. Thus, this is not affected by the world's vibrations, but are apart from them and can be used separately, even in the midst of the "enemy". It is as you were told long ago: "I prepare a table before you, in the presence of your enemy." This feeding of the soul bodies shall continue and they shall be united in spirit, as in one great body. This is the Kingdom--the hearts of those who love Him opening in obedience, tuning in with other points of contact, other points of increased light and there is an interchange. We also work with this from our ships. There is a consciousness of Spirit moving through these arteries between light centers in various parts of the country and the world.

This is God's Spirit filling needs and connecting the indwelling spirits in each. God is light. God is love; He is Life in action. This is far better communication than the written word. This is heart communication. God, in His infinite wisdom, moves within the temple of each, sends forth life-giving Spirit. We help from the higher realms, sending forth sustaining energies. Constantly there is work going on behind the scenes. This should increase your

faith and encourage you to know each other fully and bring deep love and harmony. We hope that the light centers will expand, creating a larger network of communication. Then there shall be greater power--unseen power--moving through. This is a part of the great plan of the Father to bring in the Kingdom. You are one group of the remnant, but all are working together in His Name and Nature. There shall be greater changes in you as you remember to put down the ego and offer yourselves anew each day in rededication unto the Father. The guardians are walking with you, are assisting you, administering unto you night and day.

The greater part of the earthquakes, floods and famines may very well come in the seventies with a few before this. So you must be prepared, that you know what is taking place when your Lord moves to deliver the Earth. The pain of travail must go on until the time of delivery. There is work being done among those in the various realms who are taking part in this cleansing and preparation. Rejoice, in your hearts, as you see the signs, for your redemption draweth nigh.

Our blessings! Tremendous power is in the midst of this circle. This makes it more difficult to use the voice box. We make way for the Master. He is again in your midst. Tremendous is the Light. Our thanks unto God. Selah.

My children, for the third time I ask you, "Do you love me?" Then feed My sheep for the Father's glory. I am with you unto the end. My own shall know me and know my voice. Those that follow the Shepherd shall go through the door safely. My love, My peace I give unto you.

So be it! We have all stepped aside that the Master be in your midst. We shall work with you tonight and try to help you retain some conscious memory of the experience, but this takes development. Blessings! Selah.
